Apologies for Absence Graeme Gambrell

Financial report

Card Readers were discussed it was decided that we need two [illegible] and one of the manual Readers and the other most likely to remain useable a next time. Graeme will be using the Papers card reader this week so we can get feedback from him. It must seem that the card readers can be linked to a new bank account quite easily so therefore could be shared with other village groups. It will investigate whether the powers would be happy to share and also whether the Parish Council might be interested in buying some for village groups to use. The other option is for Fonted to buy them and hire out to other village groups.
It was decided we would need three readers. Each reader needs to be linked to a mobile phone with unlimited data downloads which is [illegible].
